SAVINGS

Regular Savings Accounts keep your money safe—earning dividends—and ready for use. Deposits made by the 10th of the month earn interest from the first.

Special Notice Accounts, designed for long-range savings, earn up to $\frac{1}{2}\%$ more than regular savings accounts. Ninety days notice in writing is required for any withdrawal.

On-The-Job Savings Accounts offer employees of any cooperating firm a voluntary, systematic savings plan by payroll deduction.

School Savings Accounts, for which this bank provides facilities, are a vital part of the thrift education program in most Springfield schools.

Christmas and Vacation Clubs provide a systematic way to save with a handy coupon book to remind you. No charge for opening clubs, and completed clubs earn interest.

Common Sense

About City Directory Circulation

THE true value of advertising circulation is circulation consulted.

TO be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR every thousand directories sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 = \\ 1,067,500$$

SPRINGFIELD NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear."

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

"Right odd" after street description indicates odd numbers on right side of street.

Zip Codes are included in the description of each street and changes in zip code for streets with more than one code are indicated at the address where the change occurs.

The symbol □ following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.
